Summer Workshop: July 27, 2024

Check out more great conference photos on the EPA website

What's Happening at EPA?

Recap of 58th Annual EPA Meeting

The Eastern Pain Association held its 58th Annual Meeting on December 2, 2023 at the SUNY Global Center in the beautiful NYC. Great talks and discussions panels were held on artificial intelligence, cancer pain and "hot topics" in pain medicine. Residents also had a strong presence at the conference through the e-poster exhibit, the innovations in research segment and the trainee case presentations. EPA is looking forward to continuing this strong resident involvement in the upcoming 2024 meetings

Resident Spotlight: Charter Members of the Resident Ambassador Program

Over the last six months, residents from across a multitude of specialties (PM&R, EM, and Anesthesia) and northeast locations have been collaborating to enhance the resident presence and contributions to the EPA. Efforts have been made to improve communication, outreach, networking, research and leadership. Keep your eyes out for all the new projects coming this year!
