

# PERIPHERAL NERVE STIMULATION: PANEL DISCUSSION

---

# OBJECTIVES

---

- Discuss indications for appropriate use, patient selection process
- Understand pertinent safety matters, barriers to successful outcomes
- Cover algorithms for neuropathic and somatic pain conditions
- Explore possible future uses and improvements for PNS therapy

# INTRODUCTION

---

- Indications
- Patient Selection
- Safety & Efficacy
- Challenges

# ALGORITHMS

---

- Spine Conditions
- Peripheral Joints
- Neuropathies
- Other conditions

# FUTURE

---

- Improvements & Expansion
- New Frontiers

# QUESTIONS

---
